About SEOUL Industrial Technical Corp.

SEOUL Industrial Technical Corp. provides total engineering works from feasibility study to engineering, procurement, construction, supervision and manufacturing for UHP gas equipment, gas distribution equipment and other application facilities according to customer's requirements.

SEOUL Industrial Technical Corp. designs and manufactures various equipment related to the industrial gases and chemical plants such as pressure vessels, steel structures and gas purifiers.

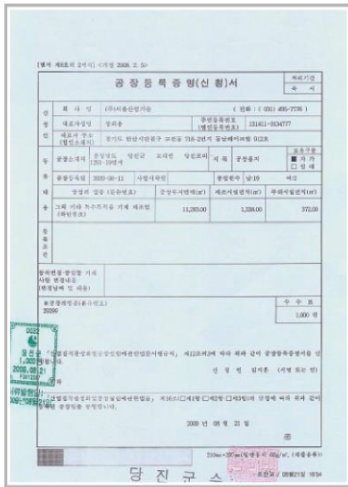

SEOUL Industrial Technical Corp. actually manufactured and installed pressure vessels for adsorption, cold box for gas distribution equipment, purifiers for argon, oxygen, nitrogen, hydrogen, and SF6 gas and piping & steel structures in gas plants.

Especially, SEOUL Industrial Technical Corp. has successfully installed facilities and equipment for gas supply in the semiconductor and FPD utility line of well-known companies. SEOUL Industrial Technical Corp. has accumulated technology and experience that is able to give an optimal service and satisfaction to customer.

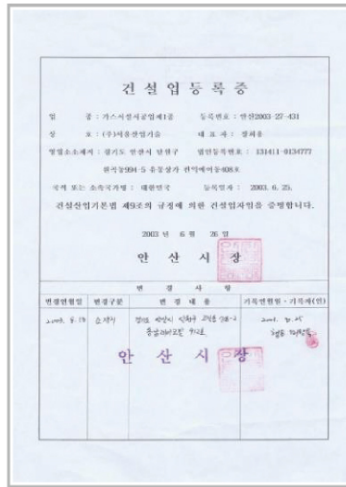

SEOUL Industrial Technical Corp. has been trying to fulfill the leading roles in the production of high-tech gas facilities which are the basic industrial equipment.

Plant Construction Works

SEOUL Industrial Technical Corp. produces and provides plant design and engineering service related to the industrial gases and has manufactured chemical & gas plants, machinery installation, piping works, UHP piping work, steel structure work.

Plant Construction

- H₂ Gas Plant
- ASU Plant
- CO₂ Plant
- Other Plants

ASU Plant

Machinery Installation

- Compressor
- Turbine
- Pump
- Column
- Heavy Vessel
- Equipment
- Other machines

Compressor Installation

Equipment Installation

Piping Works

- Plant piping
- Underground piping
- High pressure piping
- Unit piping
- Box Internal piping
- Other piping

Plant Piping

UHP Piping & Tubing

- EP & BA Piping
- EP & BA Tubing
- Equipment hook-up
- High pressure piping
- Special gas piping
- Box Internal piping
- Other tubing

UHP Tubing

Machine Walk Way

플랜트 건설공사, 기계설치, 배관공사, UHP 배관공사,
철 구조물 제작 및 설치공사

Equipment Manufacturing and Installation

SEOUL Industrial Technical Corp. produces and provides facilities and equipment related to the industrial gases such as chemical plants, gas purifier, PSA, gas cabinet, particle filter, distillation tower, gas header, unit package, pressure vessels.

SEOUL Industrial Technical Corp. has successfully installed facilities and equipment in the semiconductor line, FPD utility line and gas suppliers currently.

Distillation Tower & Box

- Vacuum type
- Insulation type
- With piping

Distillation Column Manufacturing

Equipment Manufacturing and Installation

Purifier

- Oxygen
- Nitrogen
- Argon
- Hydrogen
- Helium
- CO₂, SF₆
- Other Purifier

Cabinet Purifier

Cryogenic Purifier

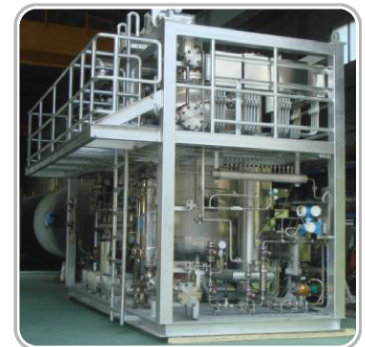

PSA

- Oxygen PVSA
- Nitrogen PSA
- CO₂ PSA
- Other PSA

PSA

Large Size Purifier

가스장비 제작 설치, 증류탑, 정제기, PSA, 캐비닛, 필터, 유닛 패키지, 압력용기 제조

Gas Cabinet

- Toxic gas
- Special gas
- Other mix gas

Gas Cabinet

Internal of Filter Housing

Particle Filter

- Oxygen
- Nitrogen
- Argon
- Hydrogen
- Helium
- CO₂
- Other Filter

Ultra High Purity Gas Particle Filter

Equipment Manufacturing and Installation

Unit Package

- Chemical dosing sys.
- ASU Unit package
- Hydrogen Unit
- M/S Unit package
- Other package

Chemical Dosing System Package

Hydrogen Unit Package

ASU Unit Package

플랜트 건설 및 가스장비 제조의 선도기업 (주) 서울산업기술

Pressure Vessel

- High pressure vessel
- Adsorbent vessel
- Reactor vessel
- Distillation column
- Other vessel

High-Pressure Vessel and Storage Tank

Reactor Vessel

Distillation Column Manufacturing

Order Made Products

SEOUL Industrial Technical Corp. always do our best to be a nice partner which satisfies any needs of customers and suppliers.
